

Words can not express what your gift means to me. Not having a car has limited me in what I can do for God. Not having a way to church, not being able to walk in the call God has placed upon my life is very discouraging. But now, I can show up for church, not only on time, but early, so I can pray for the service and the ministries that I and others are involved in.

Having a car will allow me to be involved with ministry on a the level I desire and feel that God wants from me. The bible says that what we do for God should be done with excellence. That is what I desire, to give God my very best.

I am a single mom with a teenage daughter. This will enable to provide for my family. At the present time I am in need of employment. Not having a car has limited me to where and when I can work. But now, having this car will enable me to obtain emploment and provide for my daughter.

God is so faithful! Three weeks ago I was not able to arrive at church on time. During the service I sat and cried and asked God to let this happen again. I do not like relying on others for a ride to church. I have been fasting and praying asking God to work some miracles in my life AND HE HAS!

thanks with God's love
wife
